

# Farming Poultry

Cut out and stick these events in the right order.

The chickens mix with roosters and start laying eggs.

The chicks are grown to different weights.

Chicks are taken to farms and are fed a special diet with water.

After about 21 days, the eggs hatch.

When they are 18 weeks old, some are taken to lay more eggs  
and some are taken for food.

The eggs are collected and taken to the hatchery where they are  
kept warm.
