

Key Instant Recall Facts

Year 4 – Summer 1

I know the multiplication and division facts for all the times table.

By the end of this half term, children should know the following facts. The aim is for them to recall these facts **instantly**.

- At the beginning of next half term we will be having the MTC statutory times table check.
- We will be looking at recalling all of our table facts
- Don't forget in accordance to our NCETM mastery lessons we will be recalling facts by saying the smallest factor first $7 \times 4 = 28$ is said as 4,7,28
- Don't forget to practice your going for gold cards so that you realise any facts that you need more practice with.

Key Vocabulary

What is **multiplied by** ?

What is **times** ?

What is blank blanks?

What is 84 **div**

Top Tips

The secret to success is practising **little** and **often**. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You don't need to practise them all at once: perhaps you could have a fact family of the day. If you would like more ideas, please speak to your child's teacher.

Songs and Chants – You can buy Times Tables CDs or find multiplication songs and chants online. If your child creates their own song, this can make the times tables even more memorable.

Order of difficulty – Ask your child to order these facts from the easiest to the most challenging. Can they explain why some facts are easier to remember? Then focus on practising the most challenging facts.

Use memory tricks – For those hard-to-remember facts, www.multiplication.com has some strange picture stories to help children remember.
